Mr. Russoman submitted the following potition, signed by residents of Park Avenue:

"As residents of Fark Ave., we wish to express our hopes that something might be done to enforce the "No Parking Zone when snow covered" so that the proper snow removal job can be done.

For years we and our visitors have had a good deal of trouble getting our cars out of the ruts which are never removed. During our last snowstorm a police car came through, in the evening hours, announcing to please remove parked cars, otherwise the care would be touch away. However, this order was not carried out, has care were not towed away with the result that our street is now full of dangerous rute in the

2.0749

the curb, causing a great deal of trouble to the residents and visitors. Trying to get out of these ruts is most difficult, placing a strain on both driver and car to an exasperating point.

Also due to the deep icy spots and the ruts there seems to be no drainage resulting in an accumulation of deep water and ice along the curbs, making it dangerous for the pedestrians as well.

We expect the order given by the Police Dept. to be carried out (those cars not removed to be towed away) so that our street may be cleared of snow and ice. The signs put up last fall on our street are self explanatory and the offenders who do not take head (creating this unsatisfactory condition) should be dealt with."

develops the property tax for municipal purposes after the method required by regulations under State Law. This results in full inclusion of the Reserve for Uncollected Taxes in the portion of the tax levy described as for the support of Town budget appropriations. This reserve, or "overlay" designed to guarantee operation on the full cash basis, while termed an "appropriation" is not a spending authorization and supports Town, School and County Taxes proportionately. Its enforced inclusion here, inflates the local purpose tax and causes expression of the other two segments of the levy at the amounts of cash required, rather than in terms of taxes raised for their support.

The following tabulation compares the estimated 1964 tax levy with the actual amounts levied for 1963:

As was the requirement in 1963, the net assessed valuation for 1964, as determined by the Assessor, was based on 100% of true value.

The 1964 Annual Budget proposes an increase in appropriations for salaries and wages of \$248,578.00. This amount provides for the addition of ten new employees deemed essential for proper operations, normal increments for those employees still within their salary range and a general increase of \$400.00 for all Town employees for 1964.

Other Expenses are increased by \$97,966.01 and reflect increased appropriations to the North Essex Child Guidance Clinic, Free Public Library, Street Lighting, Snow Removal and Repair and Renovation of Municipal Property. Also contemplated is an expanded program on Municipal Street Rehabilitation, replacement of several pieces of equipment and the purchase of three additional pieces of new equipment to improve municipal services in the area of public works maintenance.

Municipal and School Debt Service require an increased appropriation over 1963 of \$71,323.75.

The Reserve for Uncollected Taxes for 1964 is computed at 93.58% and amounts to \$661,575.99, an increase of \$56,104.78.

The 1964 appropriation for Local School Purposes is \$4,509,551.60, or \$304,939.41 over 1963.

The appropriation for County Purposes is estimated in this budget at \$2,506,409.14, an increase over 1963 of \$203,021.09.

The sum of \$252,010.00, included in the Estimated 1964
Tax Levy for "Vetarans and Senior Citizens Tax Credits", represents
credits of \$50.00 and \$80.00, respectively, for each Veteran and
Senior Citizen property owner as certified to the County Board of
Taxation by the Town Assessor. This is a new segment of the Tax
Dollar and accounts for 9 points of the estimated 1964 tax rate.

Revenues have been anticipated at levels believed fully realizable and operating appropriations are the minimum amounts deemed necessary to provide municipal services commensurate with Town needs.

The foregoing "Summary of Current Fund Section of Sudget" develops the property tax for municipal purposes after the method required by regulations under State Law. This results in full inclusion of the Reserve for Uncollected Taxes in the portion of the tax levy described as for the support of Town budget appropristions. This reserve, or "overlay" designed to guarantee operation on the full cash basis, while termed an "appropriation" is not a spending authorization and supports Town, School and County Taxes proportionately. Its enforced inclusion here, inflates the local purpose tax and causes expression of the other two segments of the lavy at the amounts of cash required, rather than in terms of taxas raised for their support.

THE ISSUANCE OF BONDS OR NOTES OF THE TOWN FOR FINANCING THE SAME", was unanimously adopted on first reading and July 13, 1964, at 8:30 P.M., prevailing time, at the Council Chambers, Municipal Building, Bloomfield, N.J., was established as the date, time and place of the public hearing on said ordinance: and

WHEREAS, thereafter, pursuant to and in accordance with N.J.S.A. 10:49-6, said ordinance, together with the statutory notice of hearing was published in full in The Independent Press, a newspaper published and circulated in the Town of Bloomfield, and a copy of the ordinance, together with a notice of the introduction thereof, and the time and place when, and where the ordinance would be further considered for final passage, was mailed to every person whose lands may be affected by the ordinance or any assessment which may be made in pursuance thereof; and

whereas, the improvement authorized by said ordinance consists of the improvement of Bay Avenue from Broad Street eastwardly to Hoover Avenue by the construction therein of a new bituminous readway pavement consisting of a 6 inch macadam base and a 2 inch bituminous concrete surface course and the construction of concrete curbs in and along both sides of said street, including all work and materials necessary therefor and incidental thereto, all as shown on and in accordance with the plans and specifications designated as "Plan No. D - 39-9, dated February, 1964," on file in the office of the Town Engineer of the Town of Bloomfield; and

WHEREAS, the construction of the new bituminous roadway pavement consisting of a 6 inch macadam base and a 2 inch bituminous concrete surface course shall be paid by the Town at large,

which cost shall include the sum of \$31,802.73 to be received by the Town from the State of New Jersey through its State Highway. Commission pursuant to Title 27, Chapter 15, of the Revised Statutes of New Jersey, as a contribution in aid of financing said improvement: and

WHEREAS, the cost of the construction of concrete curbs in and along both sides of said street shall be assessed against the properties specially benefited by said improvement: and

WHEREAS, on July 13, 1964, the date established for the public hearing on said ordinance, the ordinance was publicly read in full by the Town Clerk at the regular meeting of the Town Council on that date and the public hearing on the ordinance was opened; and

WHEREAS, during said public hearing owners of property affected by the ordinance or any assessment which may be made in pursuance thereof, individually and through their attorney, protested the adoption of said ordinance, and filed objections in writing, signed by 27 persons, with the Town Clerk before the final passage of the ordinance, whereupon the Town Council proceeded with and concluded the public hearing on the ordinance and deferred action thereon: and

WHEREAS, it has been determined by the governing body in accordance with the statute that the objections in writing filed with the Town Clerk were signed by the owners of approximately 66% in value of the lands proposed to be assessed for benefits accruing from such improvement as aforesaid and notice having been given that the Town Council would, on Monday evening, July 27, 1964, the adjourned date of the regular meeting of July 13,

1964, give further consideration to the passage of said ordinance, at the Council Chambers, Municipal Building, Bloomfield, N.J., and the Town Council having considered the written objections filed with the Town Clerk on July 13, 1964, the arguments of the objectors and their attorney, the scope and nature of the proposed improvement and the necessity thereof finds as follows:

- 1. Bay Avenue, from Broad Street eastwardly to Hoover Avenue is a municipal street of the Town of Bloomfield.
- 2. Bay Avenue, from Broad Street, westwardly is a highway of the County of Essex.
- 3. Bay Avenue carries a large volume of through traffic having its origin and destination outside the Town of Bloomfield.
- 4. In 1961, that portion of Hoover Avenue which is a municipal street upon which traffic to and from Bay Avenue flows, was improved by the installation of new pavement and curbs under an overall progressive program of municipal street improvements wherein the same procedure was followed as is contemplated by the present proposed improvement of Bay Avenue, and in that connection, with the approval of the State Highway Commissioner, funds have been accumulated from the annual allocations of monies under the State Aid Program, sarmarked for the eventual improvement of Bay Avenue.
- 5. Bay Avenue, eastwardly from Broad Street to Hoover Avenue is badly in need of a new roadbed and surface course to adequately accommodate the large volumes of through traffic which traverse it.
- 6. To construct a new roadbed and surface course without the installation of curbs is not considered to be sound practice

in highway construction in urban areas where it is necessary to drain storm waters from the highway and divert such waters from sidewalk areas and private property into the storm sewer system. Curbs are also required to protect the side edges of the street pavement from breakage, crumbling and deterioration.

- 7. The proposed improvement of Bay Avenue is needed for reasonable convenience, facility and to complete the unimproved stretch of the highway system between Bay Avenue to the west of Broad Street and Hoover Avenue on the east, and is in accord with a generally progressive measure and program of municipal street improvements.
- 8. The proposed improvement is in the public interest and involves the public welfare and convenience and is within the realm of public necessity:

NOW, THEREFORE, BE IT RESOLVED by the Town Council of the Town of Bloomfield, N.J., that for the reasons and findings set forth in the preamble of this resolution it is hereby determined that the improvement of Bay Avenue, as more specifically set forth in the appropriation ordinance to which reference is made herein, is a public necessity and should be undertaken forthwith.

Town Council to look into the situation and endeavor to do something to alleviate a condition that is becoming detrimental to our homes as well as a health hazard.

It seems that the railroad has turned the Greenwood Lake Division going through this section into a freight line, with trains having as many as hundred cars or more which go thundering through this community at top speed, all during the week, Sundays included. We are disturbed from our sleep as early as 2:00 and 3:00 a.m. by the continuous blowing of the train whistle. Our homes are being shaken with the vibration which in some cases, has resulted in cracked ceilings, pictures falling from the walls and television distortion.

We do not see why we must stand for this annoyance, inasmuch as we property owners are paying the same increase in taxes as other residents in Bloomfield, who are not handicapped with these conditions. Therefore, we look forward to your giving this matter your attention."

The Town Clark submitted the following petition signed by several residents in the area of Broad Street and Brookdale Road:

"At the Zoning Board of Adjustment meeting held on Thursday, November 12, the application for a variance from the requirements of the Zoning Ordinance was withdrawn by the applicant, Christian Parizot. The application was requested in order to keep in use a pool erected in 1962 in violation of the Zoning Ordinance, in a Single Family Residential (R-5) Zone, on premises known as Map 42, Block 1172, Lot 25, 1218 Broad St. (corner of Brookdale Road).

The pool is an annoyance to the immediate property owners. For twelve months of the year it is an eyesore, a monstrosity, and during the summer months, it is disturbing to the neighbors because of the carnival atmosphere it brings to a residential neighborhood.

We respectfully urge the governing body to act promptly in the removal of this violation. In this case, we feel the town has been delinquent in its failure to prosecute earlier, as the applicants were ordered on previous occasions to remove the pool, and completely ignored the notices to do so. We urge the Legal Department to uphold the integrity of the Zoning Ordinance by promptly enforcing the building code.

It is unfair to the neighboring property owners who live within the tenets of the building code, that this violation has continued for this length of time. It is an outright flaunting of the law and should be dealt with immediately."

The petition was ordered placed on file.

The Town Clerk submitted the following petition, dated November 12, 1964, signed by several citizens:

"Regarding the appointment of an assistant to the town medical examiner and/or the appointment of a town nurse, for the purpose of checking absenteeism we the undersigned are opposed.

We are certain that our elected representatives are capable men and can solve the present problem without adding another burden on our taxpayers.

Judging from reports in the press, the situation is an alarming one, evidently allowed to exist over a long period without attempts to arrest it. If this is the problem then two solutions appear to be in order.

- 1. A restriction on the number of sick days allowed each town employee.
- 2. That each department head be responsible for the attendance of the people in his department. He might also investigate the amount of moon-lighting in his department and its effect on attendance.

Private industry does not hire additional personnol to combat this evil, it is done from within. In many cases excessive absenteeism has been the cause for dismissal. Our town can learn to operate as industry does.

The patition was ordered placed on file.
